| 401 - 419                             | Fleet fighter flights.                                                                                                                                                                                                                                                 |
| 420 - 439                             | Fleet spotter flights.                                                                                                                                                                                                                                                 |
| 440 - 459                             | Fleet reconnaissance flights, many later becoming fleet spotter reconnaissance flights.                                                                                                                                                                                |
| 460 - onwards                         | Fleet torpedo flights, later becoming fleet torpedo bomber flights.                                                                                                                                                                                                    |
| 700 - 749                             | Catapult flights, later becoming catapult squadrons. When these ceased to exist the range became available for training and ancillary Squadrons. No. 700 - 710 were earmarked for use by amphibian and floatplane Squadrons in 1943, but this did not actually happen. |
| 750 - 799                             | Training and ancillary Squadrons.                                                                                                                                                                                                                                      |
| 800 - 809                             | Single seat fighter Squadrons on carriers.                                                                                                                                                                                                                             |
| 810 - 819                             | Torpedo bomber Squadrons on carriers, later torpedo spotter reconnaissance and torpedo bomber reconnaissance Squadrons.                                                                                                                                                |
| 820 - 859                             | Spotter reconnaissance Squadrons, later torpedo spotter reconnaissance and torpedo bomber reconnaissance Squadrons.                                                                                                                                                    |
| 860 - 869                             | Torpedo bomber reconnaissance Squadrons, later reserved for Dutch Navy Squadrons.                                                                                                                                                                                      |
| 870 - 879                             | Single seat fighter Squadrons, later reserved for Royal Canadian Navy.                                                                                                                                                                                                 |
| 880 - 889                             | Single seat fighter Squadrons on carriers.                                                                                                                                                                                                                             |
| 1700 - 1749                           | Torpedo bomber recognisance Squadrons reallocated to amphibian bomber recognisance Squadrons.                                                                                                                                                                          |
| 1750 - 1769                           | Single seat fighter Squadrons, NTU.                                                                                                                                                                                                                                    |
| 1770 - 1799                           | Two seat fighter Squadrons                                                                                                                                                                                                                                             |
| 1800 - 1809                           | Torpedo bomber recognisance Squadrons, NTU.                                                                                                                                                                                                                            |
| 1810 - 1829                           | Dive bomber Squadrons.                                                                                                                                                                                                                                                 |
| 1830 - 1899                           | Single seat fighter Squadrons, later used for RNVR Squadrons, and latterly RNR Squadrons.                                                                                                                                                                              |
